BEGILITY

BUILT BY OPERATORS. NOT TALKERS.

We automate our own companies to the bone – then help you do the same.

We build and run four live businesses. What we learn, we sell to UK SMEs ready to run leaner.

BEGILITY

THE PROBLEM

Most AI consultants have never run a business.

They've produced slides about automation.
They haven't had to meet payroll because of it.

01

Strategy from outsiders

Decks produced by people who've never signed a lease or owned a P&L.

02

Implementation as theatre

Partners who've never integrated a system in a business they actually own.

03

Outcomes in slides

Success measured in frameworks delivered, not hours saved or revenue moved.

BEGILITY

WHAT WE DELIVER

Three lanes.

Clear scope. Real outcomes.

01

Lead Systems

Stop leaking leads.

Capture, qualify, respond, book. Missed-call recovery. CRM discipline. Pipeline visibility where there was none.

02

Workflow Automation

Remove admin.

Handoffs, approvals, routing, reminders. Back-office work that doesn't need a human — done without one.

03

Operational Visibility

Decide from data, not vibes.

Dashboards that tell you what's actually happening. Reporting that runs itself. Management by signal, not instinct.

We do not do: bespoke ERPs, generic 'digital transformation', or open-ended retainers dressed up as projects.

BEGILITY

THE FOUNDER

Robert.

30+ years	Senior executive leadership across blue-chip international businesses.
Managing Director	Mercedes-Benz Vans UK: P&L responsibility, national team, commercial strategy.
Founder	Four operating businesses: Begility, Garlic Shop, allium., Skillity.
Practitioner	Python, Next.js, Google Cloud. Ships code, not just strategy.

I've run teams of hundreds. I've owned P&Ls in the hundreds of millions. I've sat across from real customers when things went wrong.

That's the experience I sell.

BEGILITY

ONE CLEAR NEXT STEP

30 minutes.

No pitch. No fee.

Just an honest conversation.

If you have one operational pain you can name in a sentence: leads falling through, admin eating your team, running blind without decent data — we should talk.

robert.veit@begility.com

Discovery calls are free, 30 minutes, and qualification goes both ways. We only work with businesses where we can show measurable ROI.
